PROFILE

I am a French Software and Web Engineer with a strong interest in building meaningful solutions to real-life challenges. Rather than designing systems that compete for users' attention, I focus on offering efficient, intuitive experiences that let people get things done and get back to what truly matters. I am seeking a full-time position based in the Swiss canton of St. Gallen, in Liechtenstein or in the Austrian region of Vorarlberg, otherwise remote.

EXPERIENCE

2025 - Current   **Personal website development** | Javascript, React, HTML & CSS

2021 - 2024   **Junior Web Engineer** | Sopra Steria AI Team, Strasbourg, France
